Subject: RE: 200512 Ballynagare Application - drawing scales 22.10.21

Meabhann,

The scale of the site location map scale outlined is acceptable to the Planning Authority. It is noted that the scale of the key layout plan is NTS. This will therefore be considered at application stage but should be sufficiently clear to give a clear overall understanding of the layout. In the interests of clarity it would be preferable if the site layout plans for the junction access and borrow pit were 1:500. I don't see any justification for an alteration from the standard scale for same.

Eoin

Hello Eoin,

I note that the drawing scales schedule has been updated - now attached to this email for your agreement per the requirements under Article 22 (2) (b) of the Planning & Development Regulations:

"6 copies of a location map of sufficient size and containing details of features in the vicinity such as to permit the identification of the site to which the application relates, to a scale (which shall be identified thereon) of not less than 1:1000 in built up areas and 1:2500 in all other areas, or such other scale as may be agreed with the planning authority prior to the submission of the application, in any particular case and marked so as to identify clearly...."

We would welcome the Authority's agreement that the proposed scale, set out in the attached, are acceptable.

Regards,

Meabhann

Subject: 200512 Ballynagare Application

Eoin,

I just thought I'd keep you in the loop – there was a last minute hitch with the application for the Ballynagare project. I'm just back from a week off but my understanding of things just now is that it'll go in next week, all going well.

Regards,

Meabhann Crowe
